HTML, CSS, JavaScript, NodeJS, ReactJS, PostgreSQL, Git/GitHub,
Express, Sequelize,

Projects

Fire Takes | <https://github.com/CainanB/FireTakes>

Fire Takes is an album-review site. Users can search for albums to see current opinions, stream album tracks, and add their own reviews. Registered users have a history of albums they have reviewed.

Technologies used - HTML, CSS, Bootstrap, Javascript, JQuery

Green Chip | <https://github.com/CainanB/GreenChip>

GreenChip is a real-time stock market game, where players can play the real stock market using virtual currency. Graphs help to show a portfolio's diversification and the trajectory over time.

Technologies used - HTML, CSS, Bootstrap, Javascript, JQuery, Node.js, PostgreSQL
